What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription." The answer is that "Golden Medical Discovery" is a most potent alternative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large percent of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrh, dyspepsia), bowels (as mucous colitis, diarrhea, etc.), uterus or other pelvic organs. Even in the chronic, non-infective, stasis of these functions it is often successful in effecting a cure.

The "Favorite Prescription" is adapted for the removal of all kinds of diseases—highly irregular, weak, nervous, overworked, and irregularly living women only. It is a powerful yet gently acting invigorating tonic and nerve tonic. For weak, worn-out, over-worked women—no matter what has caused the breakdown, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formula of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

The words of praise bestowed on the several ingredients entering into Dr. Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native American medicinal forest plants. They are both sold by dealers in medicine. You can afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pills, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

THE REVOLUTION IN SPAIN.

Dispatches from Cerbere, Franco-Spanish frontier say Spanish courtiers arriving there report that artillery is battering the barricades behind which the insurgents are desperately fighting in Barcelona.

Heavy fighting is now in progress on the Rambla, in San Anne Square and the Calle Del Epino. The gutters are running with blood. The number of dead and wounded cannot be estimated.

Five convents and several private residences have been burned at Llanza, where the excitement is growing.

Advices from Granollers, 16 miles from Barcelona, state that two convents have been burned to the ground. At Ossa-de-la-selva the civil guard was disarmed by the mob and imprisoned in the barracks. The call to the colors of the republicans of 1906-07, who are on leave, was without result, not a single reservist reporting for duty.

Grave events are anticipated at Figueras. Comparative calm had been restored, when orders were issued to the recruits to report for duty. The entire populace is preparing to resist. The Port Bou express left Figueras yesterday morning, but stopped at Llanza, where the track had been blown up by dynamite. At Juequera, a small town northeast of Gerona, telegraph poles have been chopped down.

All places where public funds have been deposited are guarded by the military. Business is at a complete standstill. The merchants are panic-stricken and are placing their funds in foreign banks for safe-keeping.

Many instances of soldiers refusing to fire on the mobs are reported.

Reports from the interior say that the situation is constantly growing more alarming. A mob, including many soldiers, is reported to have made a manifestation before the royal palace at Madrid, crying: "Down with the war."

THE SOUTHERN FORESTS.

The south, with twenty-seven per cent of the total area of the United States, contains about forty-two per cent of the total forest area of the country. The forest area by states is as follows: Alabama, 20,000,000 acres; Arkansas, 24,200,000; Florida, 20,000,000; Georgia, 22,300,000; Kentucky, 10,000,000; Louisiana, 16,500,000; Maryland, 2,200,000; Mississippi, 17,500,000; North Carolina, 19,000,000; South Carolina, 12,000,000; Tennessee, 15,000,000; Texas, 30,000,000; Virginia, 14,000,000; and West Virginia, 9,100,000.

The south, it will be seen, has still much of the virgin forest of the country. This forest must be used, of course, in order to meet the steadily expanding wants of this section. It must be used in such a manner, however, that the very most may be made from its annual cut, while at the same time this cut is being replaced by new growth. In this way its timber will remain a source of perpetual wealth.

The importance of forest conservation to southern interests is clearly understood by the people of the south. The future of the south is more nearly bound up in the plan of forest preservation, with its accompanying protection to waterways, power-streams, and wood-working industries, than is anything now before the people of this part of the country. Not only is the protection of the watersheds, which will some day furnish the power to run all manufacturing establishments in the entire south an important matter to the south, but the industries depending upon the forest products will also be benefited by the protection thrown about the remaining timbered area.

MURDER AND SUICIDE.

Mrs. Hannah Malarky, aged forty, the handsome wife of John Malarky, a railroad man of Bellevue, Ky., near Cincinnati, shot and killed Edward Exline, aged twenty-seven, a grocer's clerk, yesterday evening, and then drank carbolic acid, ending her own life. Exline, delivered groceries at the Malarky home, and neighbors have noticed, they say, that he spent considerable time on such occasions. Last night Exline lingered at the Malarky home until nearly 7 o'clock. About that time a shot was heard, and when passers-by investigated they found Exline's body in the parlor and Mrs. Malarky's body in a nearby room dying of carbolic acid poisoning. An army gun used to fire the fatal shot was lying by her side.

ENORMOUS WHEAT CROP.

The farmers of Minnesota and North and South Dakota will get more than \$300,000,000 for the enormous wheat crop now almost ready for the binders. This means that the farmers of these states will have more money to spend than ever before in the history of the northwest. The figure is based on the crop estimate by the Northwestern Miller yesterday, considered the most reliable wheat crop authority in the country. Based upon the price of wheat yesterday on the Minneapolis Chamber of Commerce the crop is worth exactly \$313,750,000, compared with \$148,760,000, the value of the 1908 crop.

You are letting slip a big opportunity to make money Rosemont

By not buying one of the choice lots yet to be had on Rosemont Avenue. When they are taken up there will be no more like them close to the station and on the fine terrace overlooking beautiful Rosemont Avenue, 10 feet wider than Washington street, and they will be in demand, with the natural consequence of fine advance in value.

Prices will go higher on unsold lots
When the eight fine dwellings now building get under roof.

The sale of Rosemont property will be opened in Washington when the improvements are completed, which will be in the next few weeks, and your choice will be gone. Come out and see for yourself.
